## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 2-8, 10-19, 21, 22, 24-27, 29, 31-40, 43, 44, 47, 48, and 53-64, drawn to a method and apparatus for performing cell searching, classified in class 370, subclass 342.
  - II. Claim 52, drawn to a memory arrangement in a mobile station, classified in class 711, subclass 105.
2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a memory arrangement usable in any portable telephone using any method of cell searching. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Lynne D. Anderson on 9 December 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
